Lecture Short: Jupiter & Uranus Transits
with Tarot

Let's talk about today's transits in astrology
and how we can link it to Tarot.

Before I speak on Tarot,
I'm going to show the transits.

Now, the only transits I'm going to speak
about today, are Jupiter and Uranus.

Why Jupiter and Uranus?

Well, Jupiter will be in Cancer
for at least another year,
until next June.

Jupiter is right here and try not to look
at these other planets right now.

It seems like there is a lot going on, but this
is primarily just for the visual for
our subconsciousness, which already
is aware of the energies that are coming
in for collective humanity to grow
together and react to these energies for
creation, or I should say, co-creation.

Jupiter is in Cancer and over here we have Uranus
at zero degrees, which just left Taurus
and has entered Gemini.

Let's remember that astrology is a
man made earth bound system.

It is very effective when it comes to using symbols
which really reflect back to us and
how we perceive them inwardly.

It's just a tool, okay?

We can use the attributions of Jupiter and Uranus
within Cancer and Gemini and create
even more powerful visuals for our
subconsciousness using Tarot.

Now, within Tarot, Jupiter is assigned to
the Wheel of Fortune, Key 10.

Yes, I have very big Tarot cards.

The Wheel of Fortune, Jupiter is assigned
to the Wheel of Fortune and the
Hebrew letter Kaph
is also assigned to Key 10.

Kaph means 'to grasp'.

Jupiter influence is the greater benevolence,
it is the all giving.

Jupiter is exalted in Cancer, so right now,
for this next year, we should try to focus on
the vast array of the Divine Influx coming in
for what we really want so that we can aim
our Life-Power towards what we desire.

That is the whole meaning behind 'grasp'.

We need to understand how 'to grasp' what we are
trying to know and understand.

The four corners have the fixed zodiac signs
of Aquarius, Scorpio, Leo and Taurus.

Now we just saw that Jupiter as entered Cancer.

Jupiter is exalted in Cancer.

Cancer is assigned to The Chariot.
and the Hebrew letter Cheth,
which means 'fence'.

What exactly is a 'fence'?

Well, we can use 'fences' for our creations
and our 'house', which 'house' is assigned
to Key 1, we use 'fences' to actually expand
on our creations.

With Jupiter within Cancer, think of home life.

We can think of how we want to put a 'fence'
around our 'house', but notice that the Charioteer.
here is in a moving 'fence'.

The Chariot is a type of 'house'.

The Charioteer, his body is a 'house'.

The Sphinx is, which represent the human senses,
all five senses, they are under control.

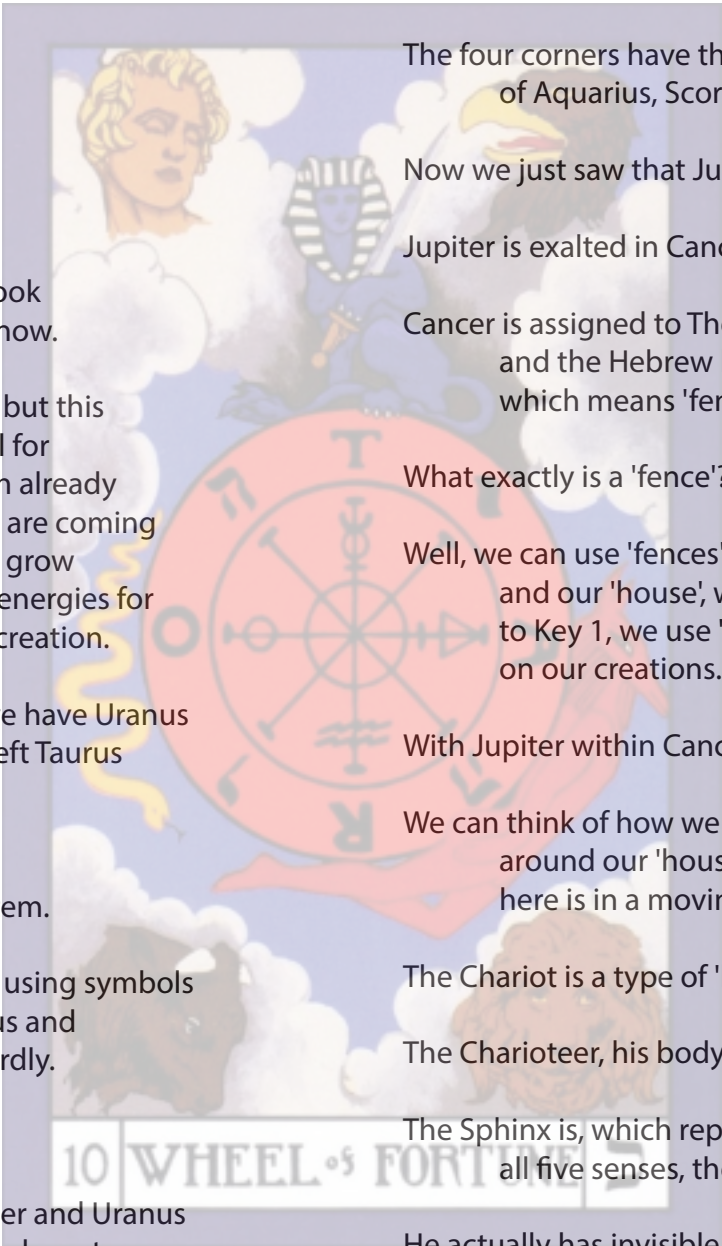

He actually has invisible reigns and has control over
his instinctual lower mind tendencies,
the compulsions that drive us forth.

The Charioteer is at rest.

He has went to battle, he came back victorious,
and The Chariot also has the title of victory,
which is in line with Venus.

We are not going to talk about Venus, just know that
Cancer is assigned to The Chariot, Key 7.

I have this book that I made last year,
if we turn to the seventh stage of unfoldment,
the principle of speech is assigned to The Chariot.

The attributions are 'fence', Intelligence of the House of Influence, Receptivity-Will and Cancer is the Zodiac sign.

Now, what is exactly, is Receptivity-Will?

The Charioteer is carrying the same magic wand that The Magician holds.

The Magician has his eyes closed, he is holding the wand, he is a gateway.

He is a divine rod for the Father's Will to travel through, his eyes are closed so that he can remain focused.

The Magician's left hand is pointing down at the garden and out of all the four elements represented by the sword, pentacles, cup and wand, The Magician is growing his subconsciousness.

The garden represents the subconsciousness.

The Magician himself represents self-consciousness.

The Hebrew letter Beth means 'house'.

The Magician himself is a 'house', the canopy of roses is symbol for a 'house'.

The reason why the canopy of roses is above The Magician is because with Key 1, prior to The Magician is Key 0, The Fool.

The Fool is on a mountain top.

The Fool represents super-consciousness.

The Fool is an androgyne.

The Fool is within us all.

We all have The Fool aspect within us.

The Fool is ready for a new adventure.

The white rose symbolizes all desires have been fulfilled.

If we could say the previous journey that The Fool was on, with the wallet of memories that he carries lightly over his shoulder, has been completed.

In order for The Fool, who is peering to the top left, but on the top right is the White Sun, the One Infinite Creator, the White Sun is the Spiritual Sun.

Our yellow Sun represents the more physical manifestation of our Solar Logos.

Super-consciousness, The Fool, in order for him to begin, I say he even though there is no masculine and feminine, to begin the next journey has to go back down into the valley in order to reach the white mountain tops, the white mountain peaks that appear untouched and are symbolic, the abstract.

The Fool is on a brown ground that represents earthy, Key 15, The Devil, the more Capricorn.

Going back to the transits, Uranus is assigned to The Fool.

With Uranus assigned to The Fool and Uranus entering Gemini, remember Gemini, zero degrees.

Gemini is assigned to Key 6, The Lovers.

Here we have a male figure, female figure and an Angel.

The male figure represents self-consciousness, the female figure, subconsciousness, the Angel, super-consciousness, and assigned to Key 6 is the principle of discernment.

With Uranus entering Gemini and with the principle of discernment, the Hebrew letter Zain is assigned to The Lovers.

Zain means 'sword'.

With a 'sword', we have to think in terms of when it comes to discernment, to cut through what we want to perceive or not to perceive.

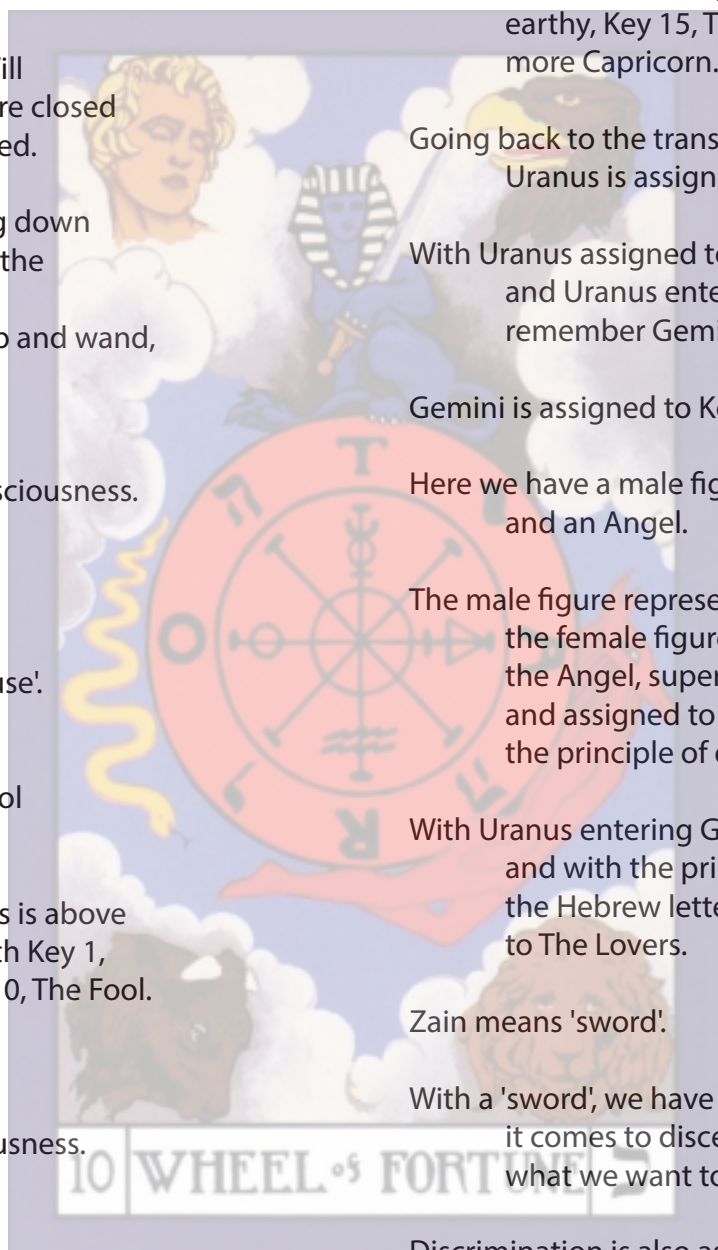

Discrimination is also assigned to the 10th Sephiroth on the Tree of Life, Malkuth, that's Earth.

Discrimination and discernment, which almost means the same thing, is assigned to Key 6, The Lovers and the zodiac sign, Gemini.

Notice the male figure is looking at the female figure and they are nude.

They are nude because they are pure.

They are focused and the self-consciousness is focused on the subconsciousness while the subconsciousness is focused on the angel, super-consciousness.

Transits

Without going much further into details,
I'm going to just recap so that the
symbols have been presented to all
of our subconsciousness
for a snapshot. Alright?

The Lovers, Key 6, Gemini, two of everything,
with Zain being assigned to 'sword',
we need to use discernment and know
what we really want and what we want
to build a 'fence' around when it comes
to our self-consciousness.

There is a lot of noise on the outside.

Key 15, The Devil, is assigned
the effect of appearances.

When it comes to what we focus on,
we have to use discrimination
or we are going to collect a lot of noise.

We want to actually aim for the quieting
of the mind, having the mind at rest.

We want to build a 'fence' around our
self-consciousness and use discrimination
on how we perceive appearances.

The Chariot, Key 7, is assigned to Cancer.

For the month of June and until next June of 2026,
Jupiter is in Cancer, so we want to be able
'to grasp' this year and know what we really
want and take advantage of the exalted Jupiter.

Uranus is assigned to Key 0, The Fool,
which has just entered Gemini.

Uranus, there could be some chaos, right?

Quirky, think of Aquarians,
but just know that within Gemini,
which is very surface level,
there might be some surface level chaos.

Yesterday, for me, my smoke alarm in the house
went off for no particular reason.

There was no reason why it should have
sounded off, minor malfunction,
I turned it off, 30 minutes later,
doing it again, so I just
completely disabled it.

Some other little things that I've noticed
and I'm thinking to myself,
this is probably the Uranus-Gemini
energies, just chaotically moving around,
not causing any harm, just little things
that we can pay attention to.

Finally, the reason I have The Magician is because
Mercury is assigned to The Magician.

Self-consciousness, what we focus on is what we are
planting within our subconsciousness.

We have the gift of discernment to know and choose
in all moments how we want to focus our
self-consciousness and to know what we want
to release and make room for new growth
within our subconsciousness.

Again, Astrology is a very powerful tool when
it comes to symbols, when we want to communicate
to our subconsciousness and how we perceive
the outward pictures that we project out.

Our self-consciousness, everything on the outside is neutral,
but there is also the appearance of positive and negative
influences constantly all around us.

That will be all for now, but just think about the transits
if Astrology is helpful and think about Tarot
if Tarot is helpful.

It has helped me and that is why I love sharing it so much.

Also, there are some other important transits
that are occurring right now,
but I wanted to keep this video short.

Thank you.
