

Jupiter Magick Square

Jupiter Magick Square

This is the first of the seven JUPITER magic squares.

It is a symmetrical arrangement of Key numbers from which is derived a magical figure called the Sigil of Jupiter.

The Sigil can be created by connecting the centers of the circles with straight lines in the following manner: begin with **Key 0** and draw a line to **Key 15**.

From **Key 15** continue the line in a descending order of **Key 14**, **Key 13**, until **Key 1** is reached. End the line by reconnecting to **Key 0** from **Key 1**.

With ceremonial and talismanic magic, this Sigil is drawn with violet color and is employed in operations of Jupiter.

There are other magic squares of sixteen numbers, but this particular arrangement has been handed down as having special potency in Jupiterian operations. This harmonious character, considered merely as a system of lines, is obvious at a glance.

With the Jupiter squares, notice that the first and third, second and fourth, numbers on the diagonal lines are extremes and a means is shown by the number between them.

The diagonal running from the upper right hand corner to the lower left, 0 and 10 are extremes balanced by 5, and 5 and 15 are extremes balanced by 10.

On the other diagonal, 3 and 9 are extremes balanced by 6, while 6 and 12 are balanced by 9.

The sum of any two numbers diametrically opposed, as 0 and 15, 1 and 14, 4 and 11, or 7 and 8, is always the same. In this square, this constant total is always 15.

The entire square corresponds to the first stage of spiritual unfoldment represented by **Key 15**. We now know that this square has to do with the initial recognition of bondage and to confront our problems.

This Sigil is connected also with the Qabalistic ideas related to the twenty-sixth path on the Tree of Life, the Renewing Intelligence.

In reading the horizontal rows, we shall follow the Hebrew order, from right to left. The diagonal row from upper right to lower left will be read from bottom to top, and the other diagonal will be read from the upper left to the lower right.

THE BOOK OF TOKENS says, "I utter myself by seeing."

With practical occultism, we must always remember that the Heavenly Vision is the real cause of the Earthly Appearance.

This physical universe is the embodiment of the mental seeing which is the essential quality of the Fiery Intelligence pictured by **Key 0, The Fool**.

Not yet do we share that vision, for it is beheld at a level which to us is super-consciousness. Although, we are assured by the wise that the Spirit of Life in us is now and always the Seer of that glorious Beyond which looms up to inconceivable heights, transcending the utmost yet attained by humanity, **Key 0**.

This Seer is with us always. It is the genius represented by **Key 14**. From it we derive all our aspirations. From it comes not only the impulse to advance, but also the power to go ahead.

For the One Seer is the One Actor also, and from that One's action all our deeds are derived.

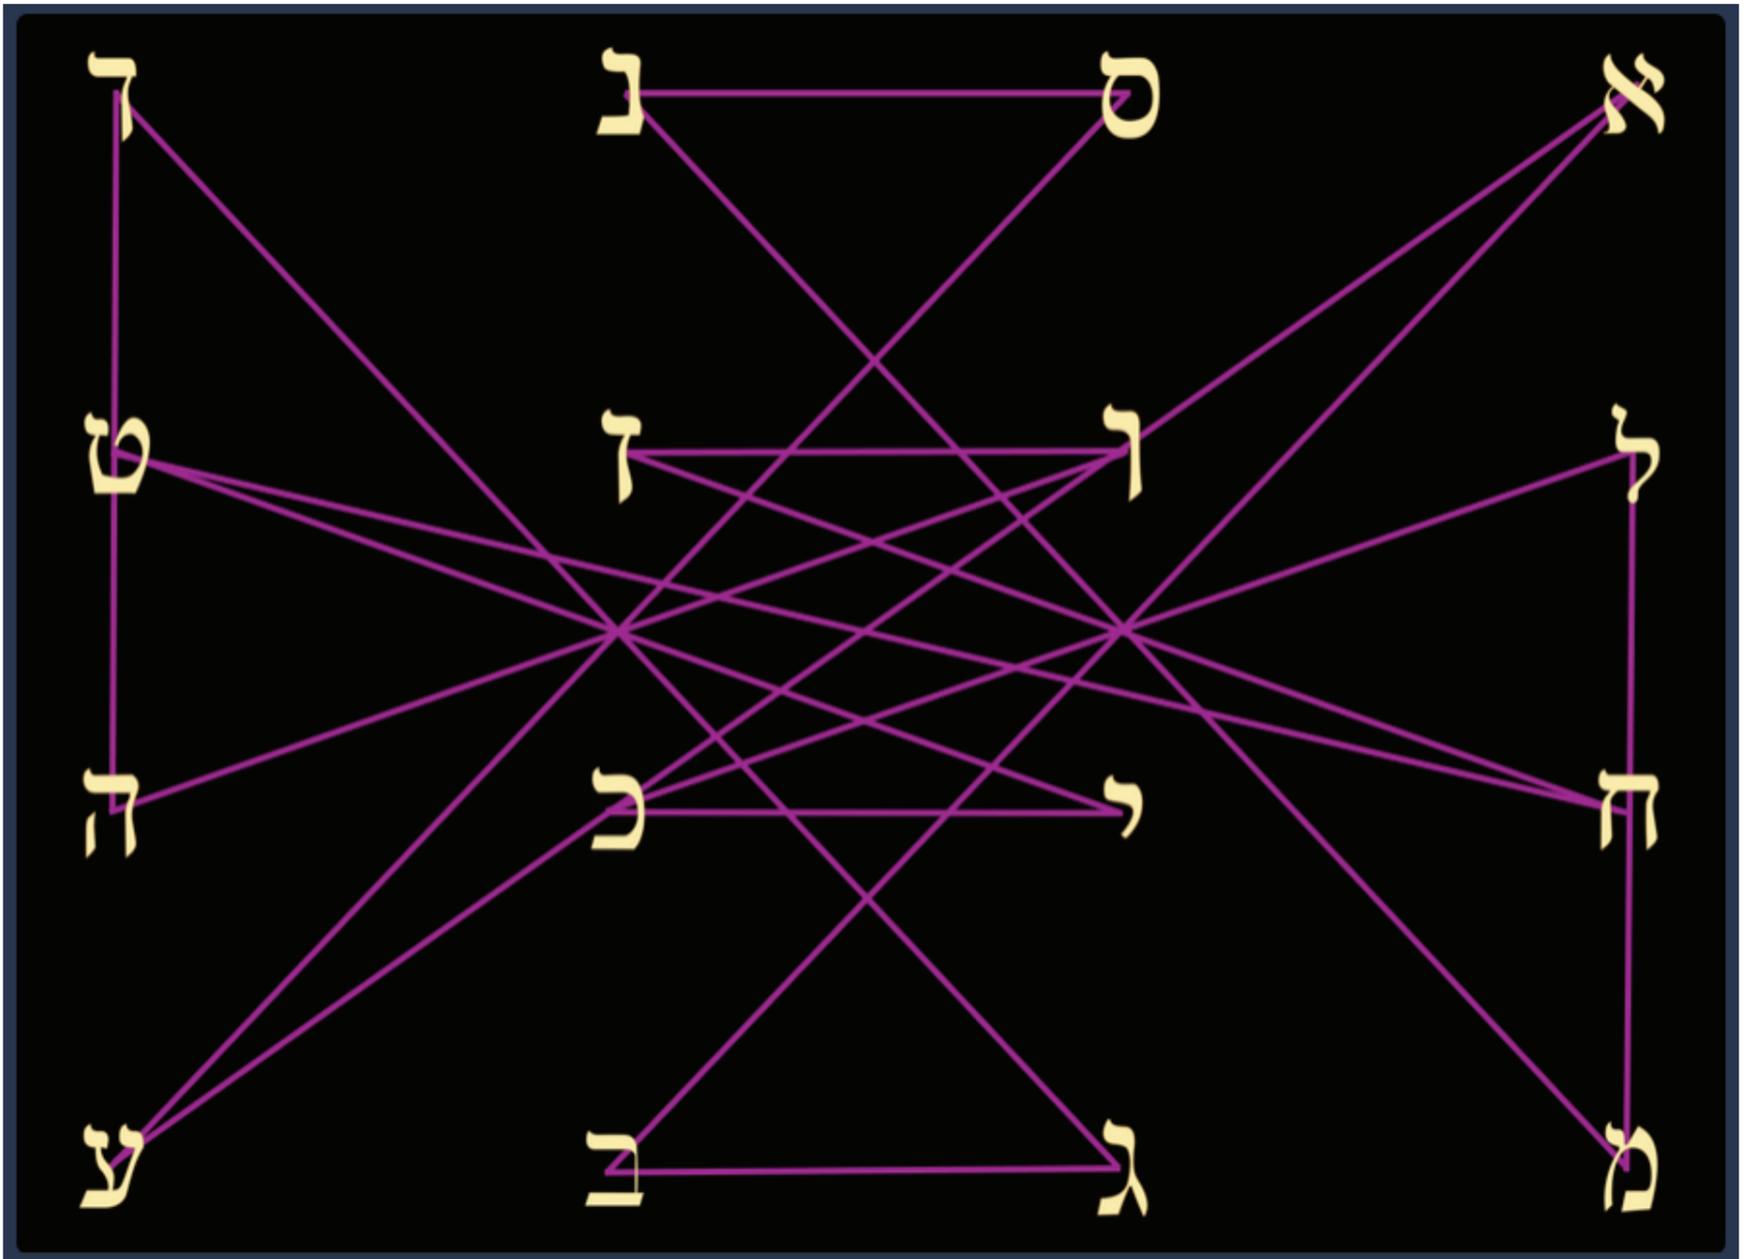

This One is the dissolver of all delusion. Steadily it moves in its progress from the darkness of the **Unknown** toward the sunlight of the perfect manifestation.

Endlessly, it reaps the fruit of the past in the field of the present.

To the unwise, it wears the grisly aspect of death, but to knowers of reality it is the Great Harvester, who becomes, in another guise, the Sower of the New Day:

Key 13, Death.

The seed thus sown springs up in the rich fruitage of ideas and forms suggested by the ripening grain at the feet of **The Empress**.

Among the letters we are now considering, does Daleth ד, symbol of the womb, follow Nun נ, which has for centuries upon centuries represented the **Mars** phallic, masculine power, but also the higher influences of **Pluto**.

Our first series of Keys in this tableau ends with **Key 3** corresponding to the fruitful mother, **Venus**, which is related psychologically to the creative function of subconsciousness with this suggested format:

1) Vision Key 0	2) Experiment Key 14	3) Action Key 13	4) Formulation of new mental patterns Key 3
---------------------------	--------------------------------	----------------------------	---

The planetary sequence consists of the rebellious **Uranus**, the expansive and orderly **Jupiter**, the transforming and disintegrating **Mars**, and the formative and integrating **Venus**.

The conjoined powers of **Venus** + **Saturn** are represented by the **Key 11**, beginning the second row. Equilibrium is always the basis of the work of a practical occultist. We should not seek to escape from the true order of the universe.

Practical occultism is living the law and is strict conformity to the way things really and truly are. This requires true imagination represented by **Venus** and concrete embodiment of that imagery in external forms of procedure, **Saturn**.

Venus as ruler of the formative and image-making power of subconsciousness, is dominant in the Keys of the second row. **The Empress** has her power is linked with that of the **Moon**, represented by **Key 2, High Priestess**.

If we seek to square our lives with the true order of the universe, we must invoke the power of **Intuition**.

We must learn from our observation of what is below us in the field of sensation; but we cannot know the meaning of what we observe unless it be imparted to us from what Tarot pictures as the **Hierophant**.

When we are so instructed, we become partakers in the **Life-Power's** perfect memory of the significance of all that exists. **The One Spirit** knows, at this very instant, the exact nature of the glorious opportunity which presents itself to us in the guise of a terrifying problem.

The One Spirit will share that **Knowledge** with us, if we **listen (Key 5)**. Only then may we attain that fine balance of personal mental powers represented by **Key 6** of this row.

The harmony between the two modes of personal mentality, self-consciousness and subconsciousness, to their happy relation with each other and to the **Superconscious Self** are direct consequences of listening repeatedly to the **Inner Voice**, and of obeying instruction. This requires true **discrimination**, and the ability to use the law represented by **Key 8** in the second row.

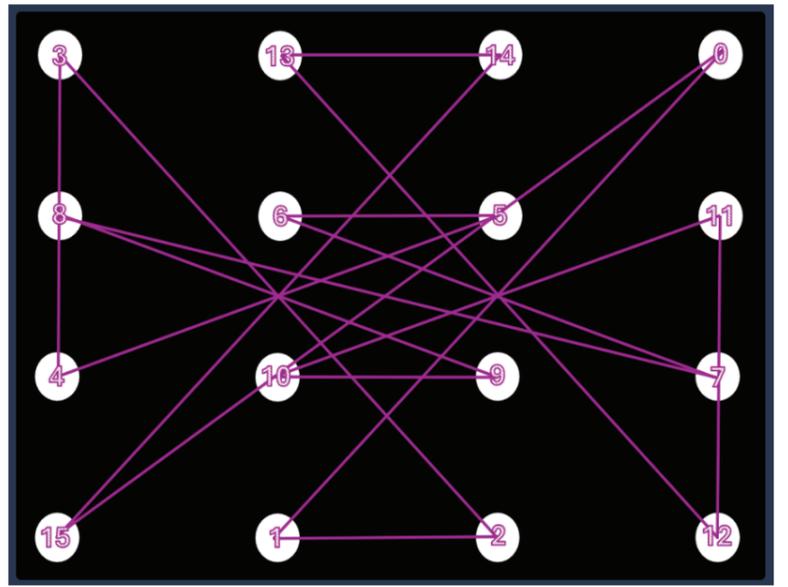

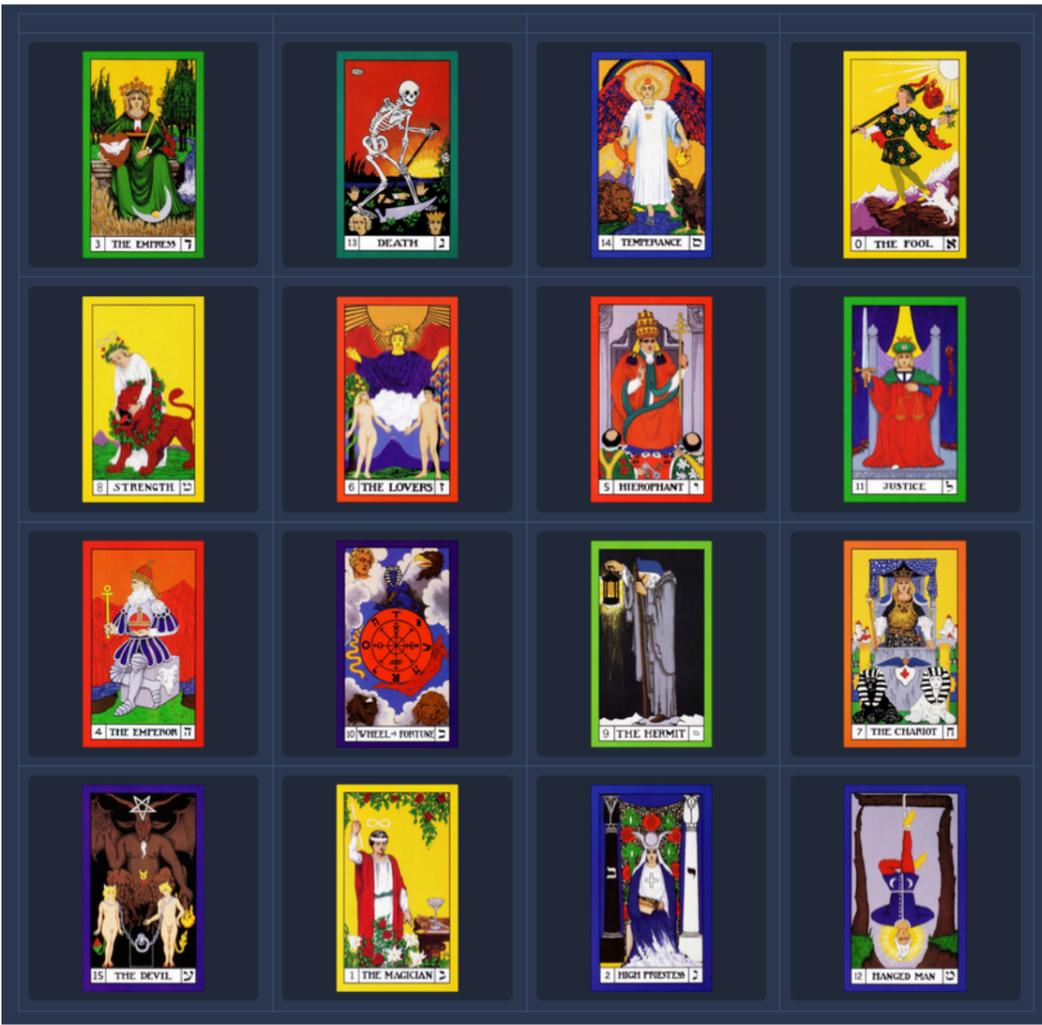

When we are always obedient to the **Inner Voice**, the **suggestions** transmitted to the human level of subconsciousness are symbolized by the woman in **Key 8**. They are always constructive, and they descend automatically to the subhuman levels typified by the lion.

We do not have to trouble ourselves about this transmission because it works perfectly without any conscious interference on our part. When we obey the **Inner Voice**, all powers of nature obey us without question.

This is the Great Secret of practical occultism.

Jupiter Magick Square

The third row of Keys begins with **The Chariot**, and related to the sign **Cancer**, which symbol for the combined influences of the **Moon** and **Jupiter**.

He who would face and solve his problems must continually remind himself that his personal existence is but a vehicle of expression for the universal **Life-Power**.

Our personal lives are direct expressions of the cosmic order, and manifestations of a power always **Victorious**. No matter what the **appearance Key 10** of the moment, each of us is in exactly the situation which, at that moment, is requisite for the expression of the **perfect order** and **Beauty** of the **The One Being**.

Over us (within us) is **The Angel of Key 14** observing our progress, who stands as **The Silent Watcher** lighting the upward path of **Key 9**.

No slightest detail of our daily lives can possibly be excluded from the sequence of **The Divine Manifestation**. Whatever seems to be otherwise is merely evidence of temporary delusion, and even that delusion has its place in **The Great Plan** which is behind all activity represented by **Key 10**.

Not for one moment does the **The Supreme Self** relax its vigilance.

Not for one moment is there any cessation of the **supervision of Key 4** which the **Life-Power** exercises over the whole process of its **self-manifestation**, and that process includes the history of all Humanity.

The fourth row of Keys begins with the **Key 12, Hanged Man**, which is symbol of the utter dependence of personal existence upon the support of the **Great Tree of Universal Life**.

The message of this **Key 12** is here as always, the truth that we must make **conscious surrender** of even the least details of personal existence to the supervision of the **Life-Power**.

We must practice this, for it does not *"come natural"*

All the superficial evidence of the senses is against **conscious surrender** and to overcome the influence of this sensory illusion, together with the hypnosis of delusion which affects the race mind with the sense of separateness, continual repetition of the **conscious attitude of surrender** is required until it becomes *"second nature."*

When this is accomplished, one result is that we begin to be able to read the scroll of the **Universal Memory**.

Our sense of personal separateness prevents us from reading the scroll Now.

That is to say, our belief that we are separate constitutes a **Suggestion** which is accepted by the **subconsciousness**, and the **Response** to that **Suggestion** is what keeps us from reading that part of the **High Priestess** scroll which was inscribed before our physical birth into this present incarnation.

Once we realize that our present personal life is, in all respects, continuous with the **stream of universal existence**, we shall begin to recover **Knowledge** of events which occurred before the date of our birth **Key 2**.

This **Knowledge** is often essential to the solution of the more important problems confronting us. Furthermore, as the inverted pentagram on **The Devil's** head implies, every problem is fundamentally one of **ignorance**, and the root of all **ignorance** is some form of the **delusion of separateness**.

Our **ignorance** is to be overcome by conscious mental activity at the level represented by the **Key 1, The Magician** in the fourth row of the square.

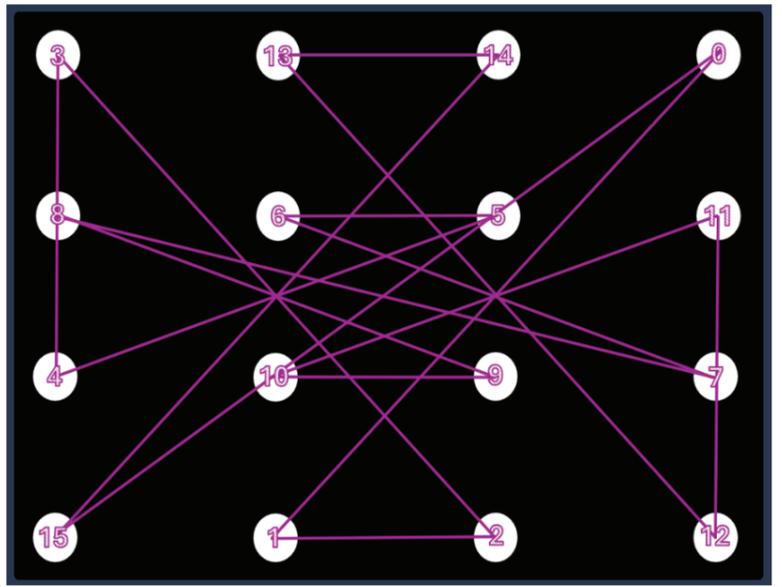

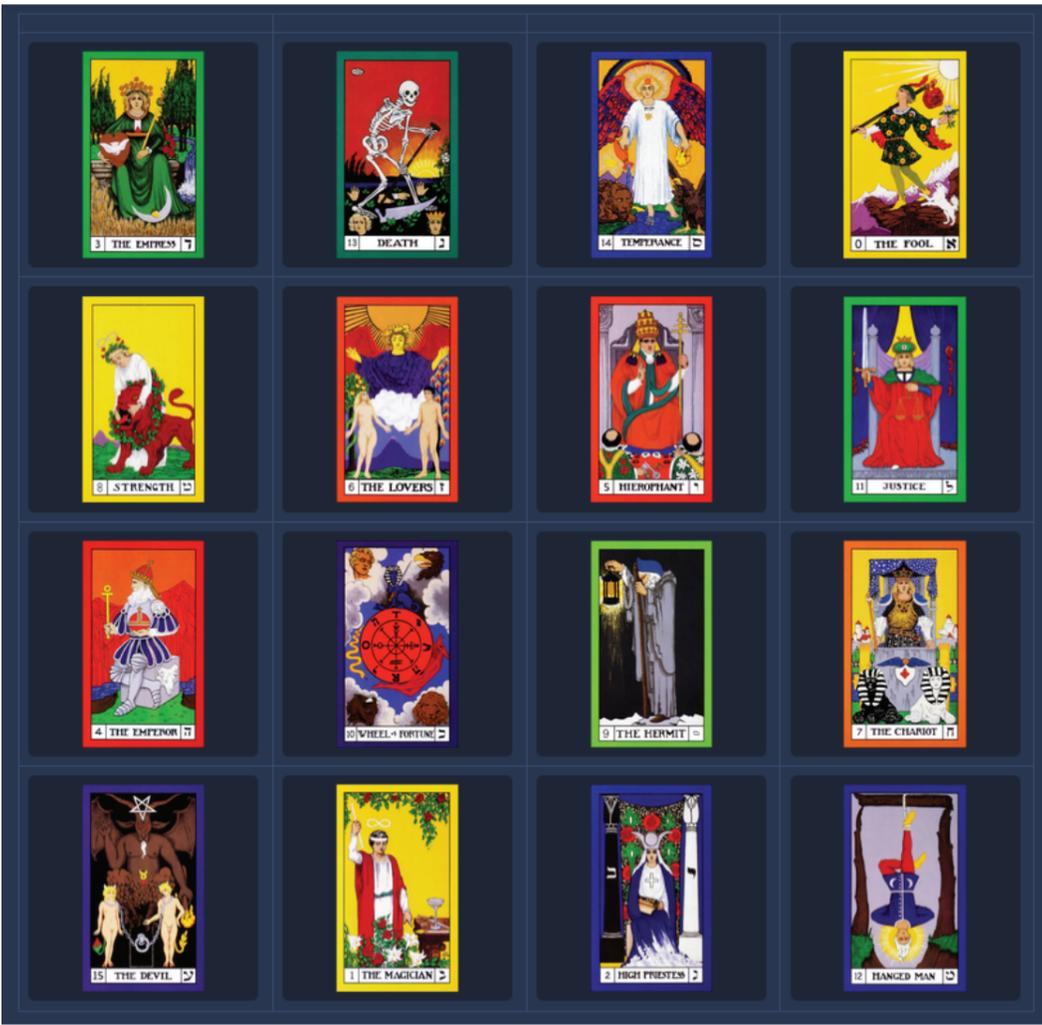

The transforming power has its field of operation at the **self-conscious** level. We have to be **consciously and intentionally** receptive to the descent of **Knowledge** and power from **super-consciousness** levels.

The primary importance is shown by the position of **Key 1, The Magician**, in the Tarot series, also by the number one of this Key, which is really that of our location in the cosmic scheme.

This means everything depends on our appraisal of the place of human personality in the cosmic order.

Jupiter Magick Square

If we know where we are, if we understand the nature of our **self-conscious** mentality, if we know its powers and make right use of them, everything else follows automatically through our **Key 1, The Magician.**

This may sound almost too easy, but we must remember that the great Masters all declare, with Yeshua, "My yoke is easy, and my burden is light."

This should be borne in mind, and also as we consider the final Key of this series.

The fearsome aspect of **The Devil** is nothing but delusion. There is no reality in the universe corresponding to this dreadful figure.

For the perfect **Knowledge** of the **Life-Power** there are no problems whatever, nor any ignorance.

The **True Self** of ourself at this very moment, knows just what we must do to be free from whatever form of bondage seems to limit us.

If we mentally relate ourself to this liberating power, we will find the solution of our problem with **The Devil.**
