 1: Title

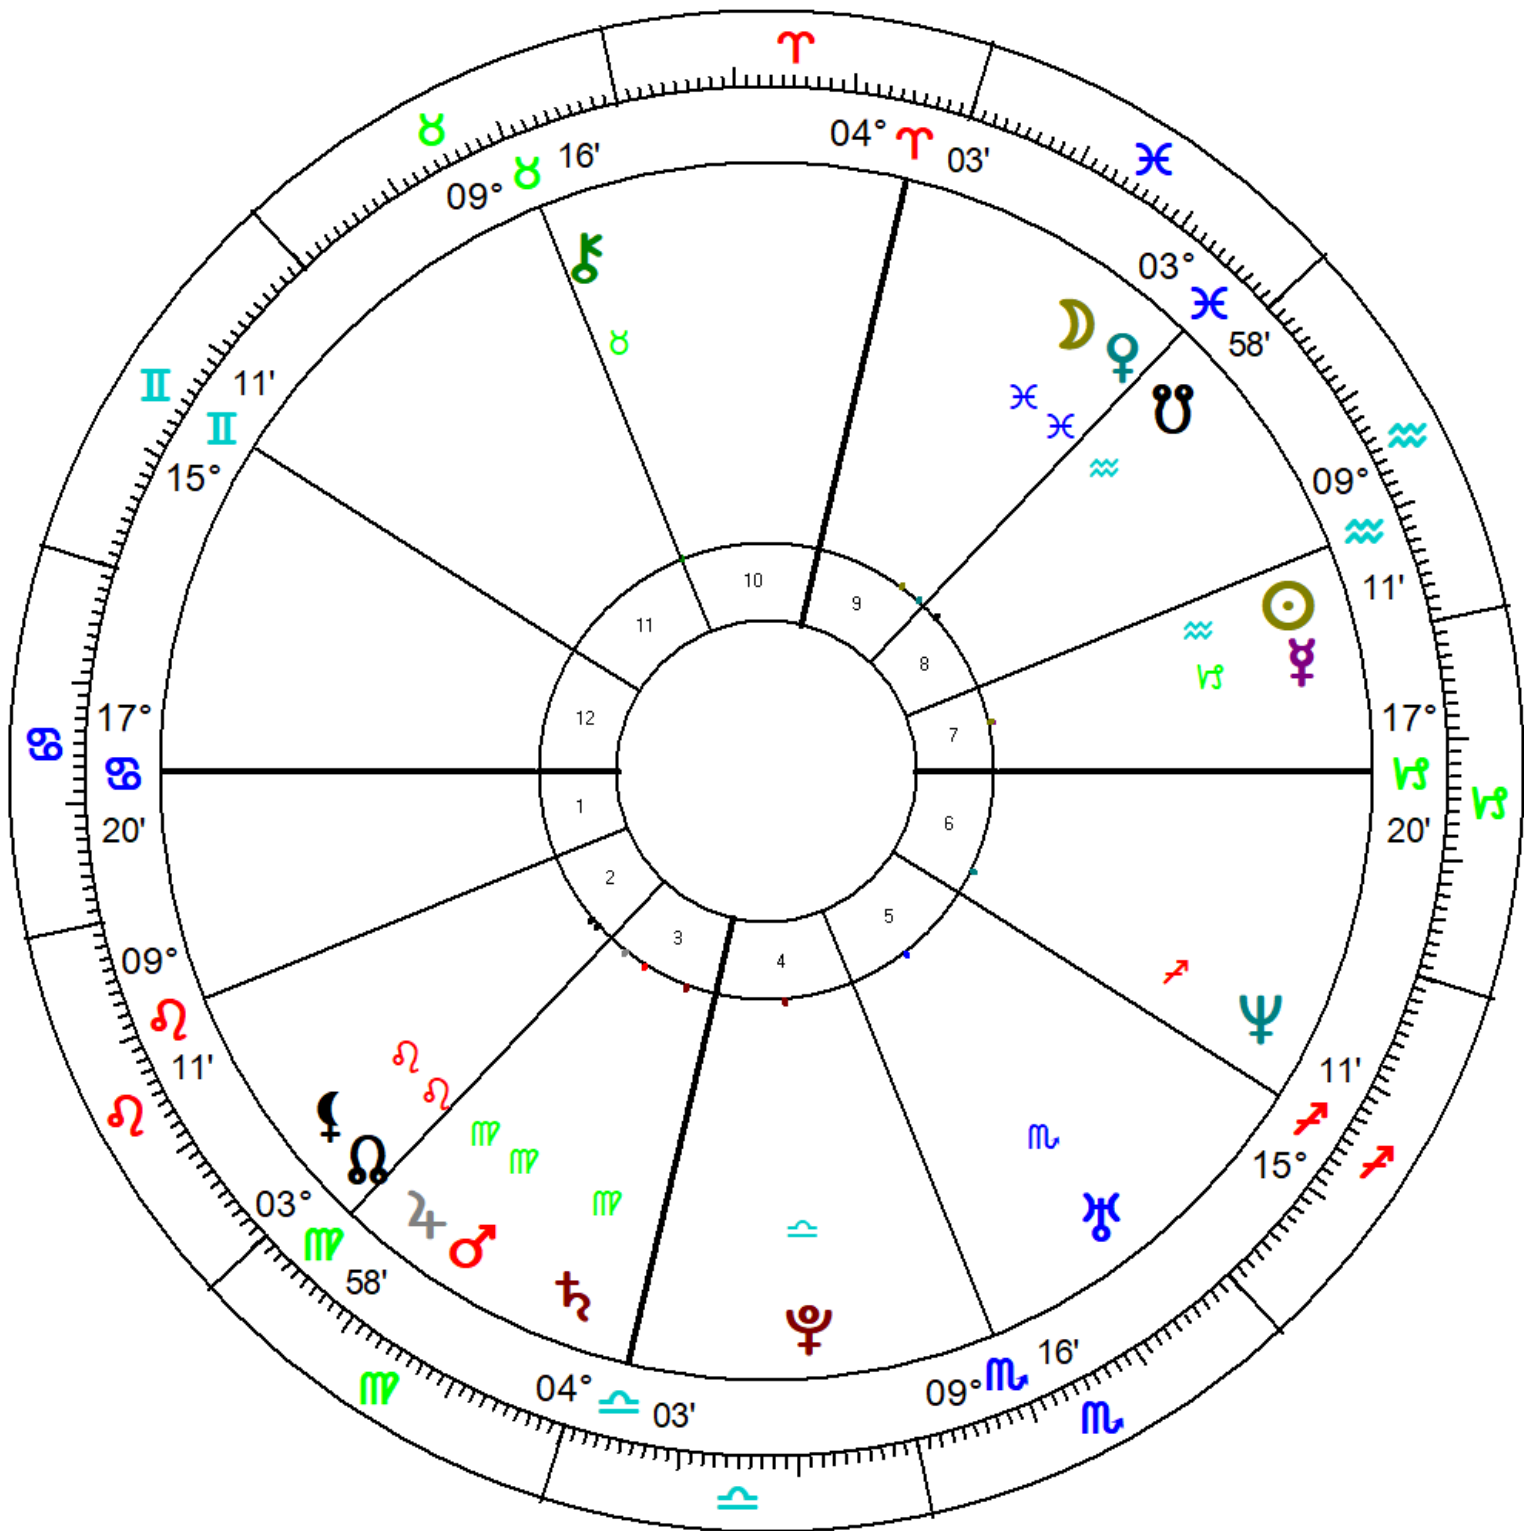

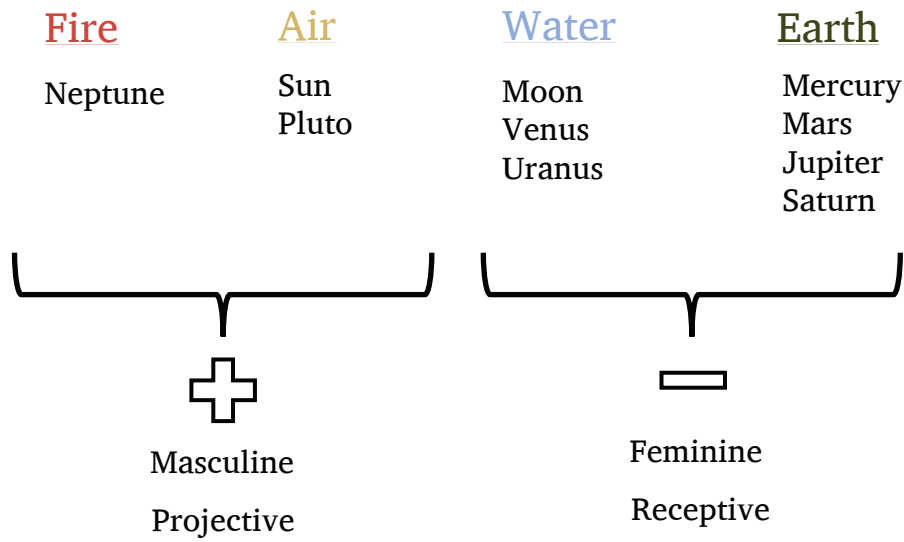

Chart Rulers

Astrology Patterns with Tarot.

In this lecture, I will continue to use my Astrology chart to demonstrate how we can learn the patterns and symbols of Astrology with Tarot to assist with our subconscious response for a more accurate overview with our life destiny.

The previous lecture, we focused on the 1st Quadrant rulers of the Personality layer and the Foundation layer which includes the 1st, 2nd, and 3rd Houses.

In this lecture, we will move my life-line through the 2nd Quadrant and determine the rulers for the 4th, 5th, and 6th Houses.

Astrology Patterns with Tarot Part 5

2: Quadrant Rulers

We have identified and established the rulers of each quadrant on the Personality layer of my astrology chart.

The 1st Quadrant is ruled by the Zodiac sign Cancer and Key 7, The Chariot, which has the ruling Planet of the Moon.

The 2nd Quadrant is ruled by the Zodiac sign Libra and Key 11, Justice, which has the ruling Planet of Venus.

The 3rd Quadrant is ruled by the Zodiac sign Capricorn and Key 15, The Devil, which has the ruling Planet of Saturn.

The 4th Quadrant is ruled by the Zodiac sign Aries and Key 4, The Emperor, which has the ruling Planet of Mars.

3: Quadrant Rulers

We have identified and established the rulers of each Quadrant on the Foundation layer, which is the same for all of us.

The 1st Quadrant is ruled by the Zodiac sign Aries and Key 4, The Emperor, which has the ruling Planet of Mars that is assigned to Key 16, The Tower.

The 2nd Quadrant is ruled by the Zodiac sign Cancer and Key 7, The Chariot, which has the ruling Planet of the Moon that is assigned to Key 2, The High Priestess.

The 3rd Quadrant is ruled by the Zodiac sign Libra and Key 11, Justice, which has the ruling Planet of Venus that is assigned to Key 3, The Empress.

The 4th Quadrant is ruled by the Zodiac sign Capricorn and Key 15, The Devil, which has the ruling Planet of Saturn that is assigned to Key 21, The World.

4: Pre-birth Needs

In the previous lectures, we have identified and established the pre-birth 'needs' by observing the House size if less than 30 degrees, whereas greater than 30 degrees determines the already well developed characteristics within the subconsciousness from past incarnations.

For example, we will discuss the large 2nd Quadrant in this lecture which does not contain any pre-birth 'needs', but I can channel the 4th, 5th, and 6th Houses to assist with the development and expansion of the 1st, 2nd, 7th, and 8th Houses.

5: 2nd Quadrant: 4th House

As my life-line enters the 2nd Quadrant and into the 4th House at the age of 22 years old, a big shift occurred during my consciousness development, even if I was not aware of it at this phase of my life.

The 4th House is considered the foundation and home house which has the developments of our inner world and our personal independence, but also has the attributions of family obligations, self-care, core beliefs, personal security, and private life.

The 4th House on my Personality layer is ruled by Libra, which is assigned to Key 11, Justice, but on the Foundation layer, Cancer is the ruler and assigned to Key 7, The Chariot.

The ruling Planet for Libra in the 4th House is Venus, which is located in the 9th House of Pisces.

This means I can focus on the Tarot symbols and attributions of Key 18, The Moon, because Pisces is assigned to this Key.

Also, I can focus on Key 3, The Empress, because Venus is assigned to this Key, which reveals the symbols and attributions that will provide the guidance and support for 2nd Quadrant family development.

It is important for me to know that Venus rules both of my 4th House and 2nd Quadrant.

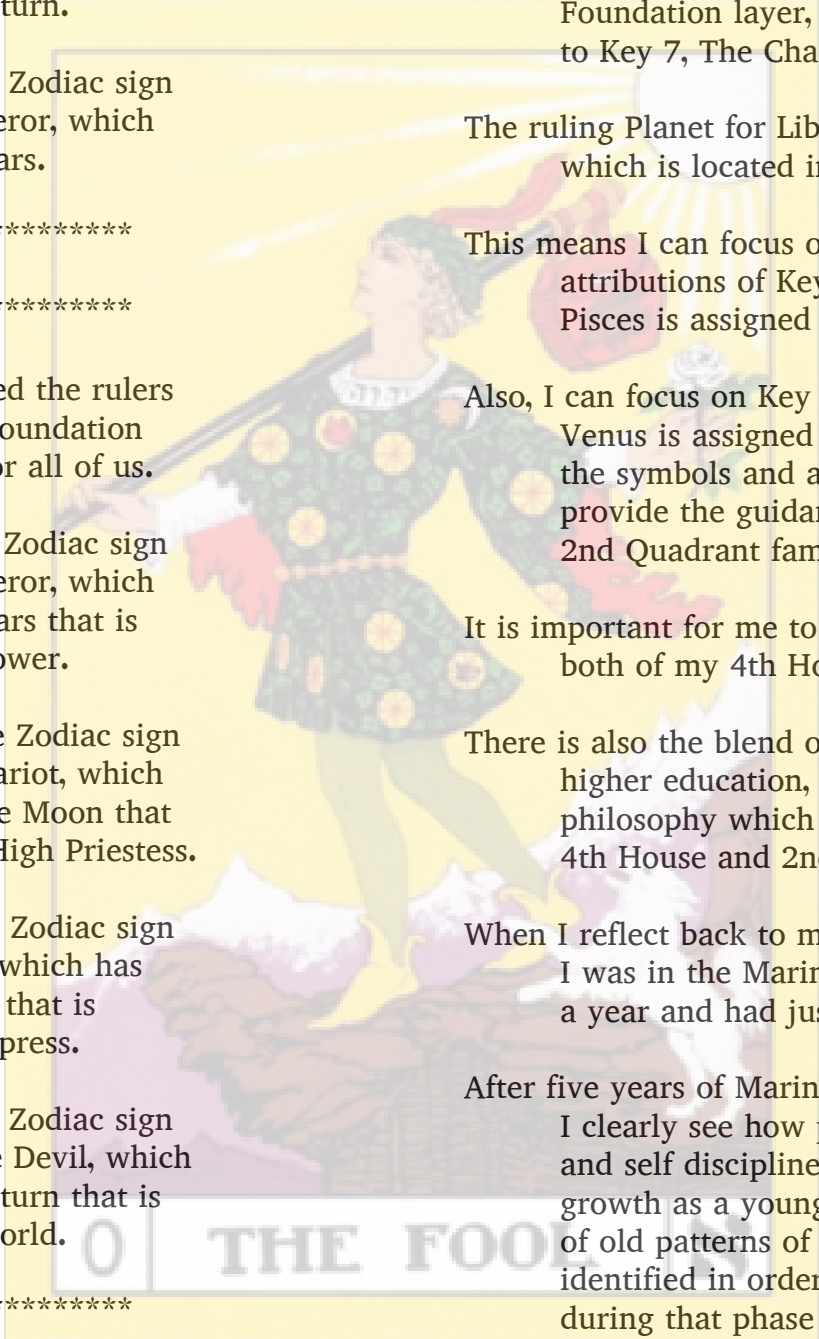

There is also the blend of 9th House qualities of higher education, travel, spirituality, and philosophy which will be beneficial for my 4th House and 2nd Quadrant family development.

When I reflect back to my age of 22 years old, I was in the Marine Corps for a little over a year and had just married my 1st wife.

After five years of Marine Corps experience, I clearly see how personal development and self discipline began to assist in my growth as a young man, but I still had a lot of old patterns of thought that needed to be identified in order for me to balance my life during that phase of age 22 to age 32.

There is a pre-birth 'intent' of Pluto which implies that my source of power in this lifetime will be in my 4th House and Key 11, Justice, is a strong suggestable image for developing my inward capacity towards my own self-direction.

Although the 4th House is ruled by Cancer on the Foundation layer and assigned Key 7, I will use Venus in my 9th House and also the attributions of Key 3 and Key 11 in order to access my source of power from Pluto which will build the required strong foundation for this lifetime in order for me to fulfill my Fate and life destiny.

Symbolically, Pluto sits at the most bottom degree of my astrology chart, which would be considered my subconsciousness, and this also provides clue that this lifetime will be a more powerful inward journey of self discovery and ultimately expressing outwardly with my Venus aspect of creative imagination to what I have learned about myself.

Soon after my Pluto became activated, my life-line entered Scorpio just prior to the 5th House, which Pluto rules Scorpio, and this was the approximate period of my life when my first wife and I divorced, along with my alcoholism that began to intensify at a self-destructive rate.

The important factor to identify with my 4th House is the understanding of my accumulated experiences from age 22 to age 32 are colored with influences from the beginning of my 2nd Quadrant development, layered onto my previous 1st Quadrant development, and even more importantly, to know that my patterns which should have been outgrown from the 1st Quadrant will continue to re-appear as difficulties or adverse expressions until I identify, acknowledge, release old thoughts and patterns that are no longer useful and replace them with new thoughts and patterns that serve my consciousness development.

The influences of Libra and Scorpio will ensure the changes happen that are needed during the age of 22 to 32 no matter how painful, because when my life-line enters the 5th House of self-expression, the foundation created will determine the environments for the next phase of this life.

Within the seven stages of spiritual unfoldment, Key 11, Justice, is the agency of action which can use Key 18, the Moon, which is the effect of organization and Key 3, The Empress, is the principle of creative imagination, and finally Key 7, The Chariot, is the principle of speech.

6: 2nd Quadrant: 5th House

My life-line enters the 5th House of self-expression at the age of 32 years old, which has the attributions of procreation, love affairs, creativity, public image, celebrations and entertainment.

On the Foundation layer, the 5th House is ruled by Leo, but for my Personality layer, Scorpio is the ruler which means I channel the ruling planet of Pluto, located in my 4th House of Libra, to assist with my 5th House development and the continuation of my 2nd Quadrant family development.

Let us remember that my 2nd Quadrant contains large 4th, 5th, and 6th Houses which reveal no pre-birth 'needs', but there are three pre-birth 'intents'.

The pre-birth 'intents' are to assist with Humanity's consciousness growth along with our own personal consciousness growth and this includes to grow the size of my small Houses of pre-birth 'needs' that are the 1st, 2nd, 7th, and 8th Houses.

My 5th House has a pre-birth 'intent' which is the Planet Uranus that is assigned to Key 0, The Fool, which this Tarot Key clearly expresses in symbolism for the irrepressible force that we as human beings, are always seeking to throw off restrictions and find independence within the defining power of limitations from Natural Law.

All three of my transpersonal Planets, which are the higher octave Planets of Uranus, Neptune, and Pluto, are located in my 2nd Quadrant, and this represents my inner world contains the influx of higher intellect to become activated before I begin the 2nd phase of my life in the 3rd Quadrant.

The important factor to notice in my 5th House is Scorpio, the fixed water sign, which will channel my 1st House, Cancer, that is my ascendent and the other subjective water sign in my astrology chart.

This means from age 32 to age 42, emotional chaos will be present in order to transform unresolved emotional energies that will replay in my life over and over for the dissolution to break down and release those emotional energies to further my consciousness development.

Key 13, Death, channels the ruling Planet of Pluto located in my 4th House, which symbolically is the extreme depth of my subconsciousness, and will use the attributions of Key 11, Justice, to create the required balance needed for this life phase, and we also should notice that Saturn is exalted in Libra whereas Uranus is also exalted in Scorpio to produce severe intensity for clearing out emotional energies from previous life phases.

When I reached the age of 33, my alcoholism had reached a peak to where if I didn't attempt to make correct changes or better choices in my life, the final death of my life would appear very soon because everyday was a living death.

My outside world was a complete blur with limited direction because that was also my inner world, but Uranus energies were present in my 5th House, which I can clearly see now, and the gift of Uranus provided the organization capabilities within chaotic states which I had experienced.

At the age of 35, I had entered recovery for alcoholism and with the long, hard self-work, to do better for myself and address emotional and mental states that kept me in my dark, living death, were confronted, and over the years, I have since accumulated strong sobriety of nine years which resulted in the unfoldment of know thyself, for who I really am, but this required complete transformation, which is Key 13, Death.

Astrology Patterns with Tarot Part 5

With Scorpio being assigned to Key 13, Death, and Pluto being assigned to Key 20, Judgement, the symbolic image of a grim reaper harvesting human heads, hands, and feet while walking forward toward a transformative process results in the Angel of Key 20, sounding the trumpet of victory with human figures rising out of their coffins to higher states of consciousness.

Key 0, The Fool, is a symbol of liberation and new journeys, but the white rose held behind The Fool, symbolizes that all desires must be fulfilled which within my experience of alcoholism as a primary catalyst in my life, we can see the same white rose in Key 13, Death, which the grim reaper walks toward.

This means I had to die in this life phase around the age of 35 in order to become The Fool of Key 0 and to eventually rise from my coffin in Key 20, Judgement, but I had the help of Key 11, Justice, with her sword to slice away my ignorance that kept me in my own bondage.

Within the seven stages of unfoldment, Key 13, Death, is the agency of motion which can use Key 11, Justice, the agency of action, and Key 20, Judgment, which is the effect of realization, all of these Keys provide strong suggestion for Key 8, Strength, which is the agency of suggestion that our subconsciousness will respond to for our consciousness growth.

7: 2nd Quadrant: 6th House

My life-line enters the 6th House of integration at the age of 42 years old, which has the attributions of individuation, self-analysis, self-improvement, health, work, service, patience, practicality, prudence, perseverance, purity, reliability, and loyalty.

The 2nd Quadrant can be viewed as the higher octave of the 1st Quadrant, which also applies to the 2nd Quadrant 4th, 5th, and 6th Houses toward the 1st, 2nd, and 3rd Houses.

This means our consciousness growth from the 1st, 2nd, and 3rd Houses build the lower layers of physical, emotional, and mental body development and then the 2nd Quadrant will attempt to expand and grow with its own 2nd Quadrant layer of 4th, 5th, and 6th Houses within 1st Quadrant development.

If unidentified or unresolved consciousness development from primarily the emotional body in the 1st Quadrant is not correctly alchemized and then integrated within the 2nd Quadrant, then a type of loop will keep reoccurring with similar expressions of projections and reflections that are receptive to ourselves until we accept and acknowledge the emotion instead of avoidance.

On the Foundation layer, the 6th House is ruled by Virgo, but for my Personality layer, Sagittarius is the ruler which means I can channel the ruling planet of Jupiter, located in my 3rd House of Virgo, to assist with my 6th House development and the continuation of my 2nd Quadrant family development.

The coloration of Sagittarius which began at my age of 38 and will be present until my age of 46.5 years old will persist of qualities such as intelligence, reliability, energetic, sincerity but this Zodiac sign also will shine light on the defects of arrogance, pride, superiority, and imprudence.

The Sagittarius quality most needed for balance is attention to details with administrative and organizational skills, but a deeper need is to mentally expand and guide others through experiences while remaining faithful to their ideals.

Jupiter qualities primarily refer to expansion, which we can notice that my 6th House Foundation layer of Virgo is channeling my 3rd House Personality layer of Virgo and with Key 9, The Hermit, there is expression that will bring great opportunity of potentialities for mental body development from my age of 42 years old to 52 years old.

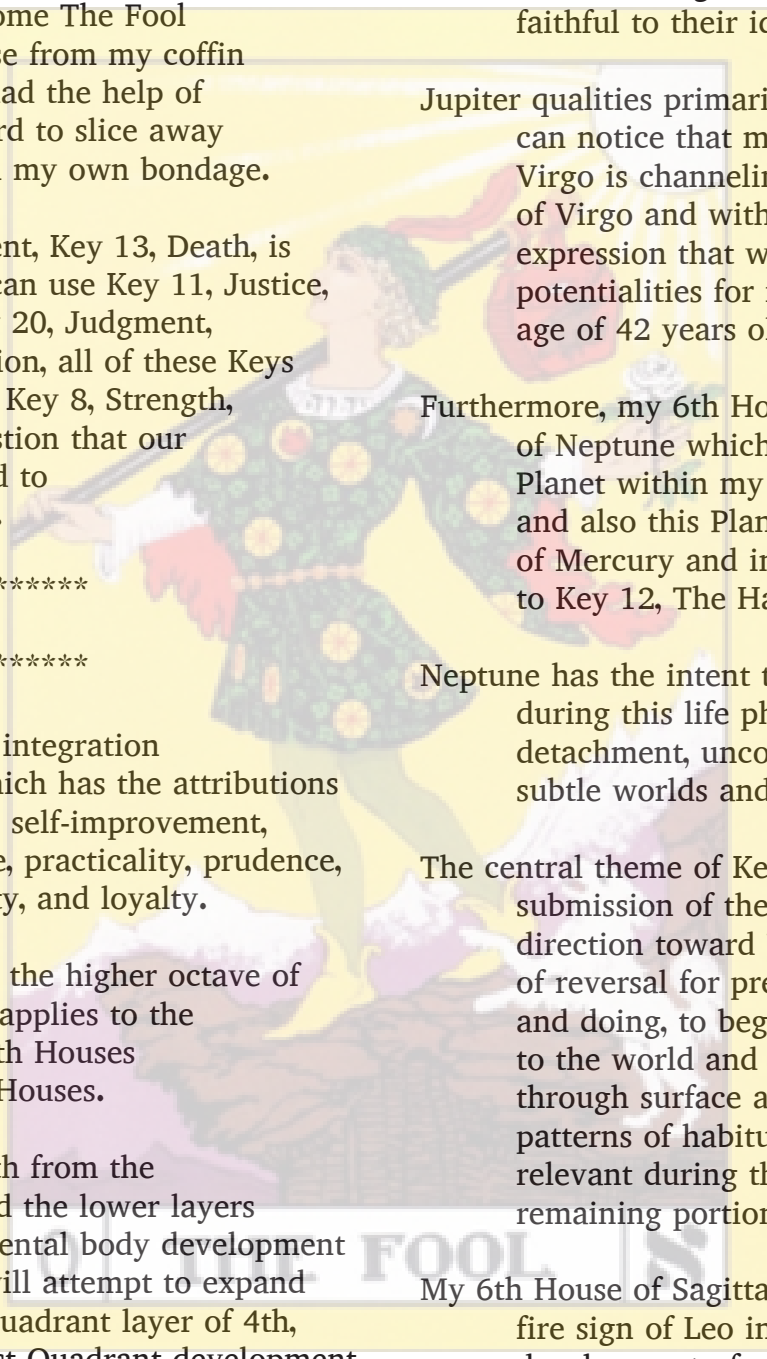

Furthermore, my 6th House has a pre-birth 'intent' of Neptune which is the third and final transpersonal Planet within my astrology chart that will be activated and also this Planet is considered the higher octave of Mercury and in Tarot this Planet is assigned to Key 12, The Hanged Man.

Neptune has the intent to assist my consciousness growth during this life phase by the higher attributions of detachment, unconditional love, spiritual ideals, subtle worlds and seeing through illusions.

The central theme of Key 12 is self-surrender and submission of the personal consciousness to the direction toward Universal Mind which has the basis of reversal for previous ways of thinking, speaking, and doing, to begin walking in all things contrary to the world and build a foundation that will see through surface appearances and release previous patterns of habitual creations that are no longer relevant during this life phase and for the remaining portion of my life.

My 6th House of Sagittarius will also channel the fixed fire sign of Leo in my 2nd House, which is the development of my emotional body, but unlike my 5th House phase of life, which consisted of the death of emotional energies from earlier experiences in this life, Key 14, Temperance, consist of Divine support to rebuild and integrate the emotional body on the Personality layer, but even more with the 6th House, the mental body must be integrated also.

After I reach the age of 46.5 years old, my life-line enters Capricorn, which we can notice there is a lot of Earth being channeled in my 6th House as I prepare to enter the 2nd half of my life at age 52 years old.

Astrology Patterns with Tarot Part 5

Within the seven stages of spiritual unfoldment, Key 14, Temperance, is the agency of verification which can use Key 9, The Hermit, the agency of response, and Key 10, the agency of grasp, to access the foundation layer of Key 9, The Hermit, for clear, responsive ideas on adjustment of differences to establish harmony and order with the involution and evolution of ourselves while growing our consciousness.

8: 2nd Quadrant

In the next lecture, we will continue to use my astrology chart as an example of how our life-line moves from the 2nd Quadrant of family development into the 3rd Quadrant of social development, which will also begin the 2nd phase of my life that is considered the objective world and the goal is to leave our subjective world in a type of purified state for our subconsciousness.

In review of my 2nd Quadrant of family development, we can use the symbols of Tarot to wrap attributions and characteristics that are referenced through astrology and Tarot that my Personality will use to access the foundation layer of my consciousness growth through life experiences and contemplations that occur within me.

My 4th House of Libra and the entire 2nd Quadrant is ruled by Venus, which this provides a high level of overview or a glimpse of the emanations that will persist strongest within me, meaning I can reference the Venus attributions and Key 11, Justice, that will keep my aim and focus on target during this life phase that I experience for my consciousness growth.

My 5th House of Scorpio is ruled by Pluto, which references my 4th House of Libra because of the pre-birth 'intent' of Pluto, and this implies strong implications of change and death that must occur or else I probably would have used an exit point for a final death within this lifetime.

The Tarot symbols show that Key 13, Death, will harvest all previous experiences during my life and use Key 11, Justice, and the scales of justice to weigh what is useful to keep, such as habit patterns of thoughts and actions, but the sword of justice will slice away the ignorance so I can see clearly my own judgments that need to be burned away with Key 20, Judgement, for a resurrection of a new Personality.

My 6th House of Sagittarius is ruled by Jupiter, which reference my 3rd House of Virgo and the symbols provided by Tarot reveal the possibilities of a higher octave for my mental body which is supported by Key 14, Temperance, but the emotional body will need to be purified in order to experience the greater gifts of Jupiter that pour through us in all moments.

When we purify our subconsciousness, the illusions will disappear and the greater gifts of Jupiter are seen more clearly, but this requires our correspondence with our Divine Self symbolized as the Angel in Key 14, Temperance, and Key 9, The Hermit, who stands on a icy mountain peak while being perfectly content with himself because of the down pouring support always provided from the Divine while we experience our life.
